

Ultimate Mix

In making our Ultimate Mix, our intention is to make as near as possible a complete and biologically appropriate raw mix for dogs.

See reverse for full ingredient details

What's in our mix?

Beef

Beef is an excellent quality muscle meat, our beef is lean and a very cost effective protein source.

Chicken

Chicken is an excellent addition to the diet, offering increased calcium and insoluble fibre from bone content. Moreover, as a white meat, it serves as a valuable source of high-quality protein.

Possum

We incorporate whole possum, including organs, into our product. These animals consume a diverse and fresh diet, providing exceptional nutrition for dogs. A small amount of fur is also included to serve as nutritional fibre, mimicking what a dog would naturally encounter in the wild.

Green Tripe

A nutritional powerhouse for dogs, boasting an excellent nutritional profile and exceptional benefits for gut health.

Eggs

Eggs are a good source of Vitamin A, Riboflavin, Folate, Vitamin B12, Iron, Selenium and Fatty Acids

Vegetables

A small amount of green vege & carrot is added for additional nutrients and dietary fibre.

Organs

We have incorporated a balanced proportion of heart, liver, lung, and kidney to provide additional nutrients, ensuring the mix is as complete as possible.
