

Venison Pro Lean

Our Venison Pro Lean is designed to offer a superior nutrient profile for dogs needing a low-fat diet. It contains no beef muscle meat or chicken. Despite being a low-fat option, it includes a generous amount of salmon to ensure your dog receives the essential fatty acids necessary for optimal health.

What's in our mix?

Wild Venison

Wild Venison has a fantastic free range diet and is a naturally low fat meat. These animals are drug free and are fully sustainable.

Green Tripe

A nutritional powerhouse for dogs, boasting an excellent nutritional profile and exceptional benefits for gut health.

Salmon

Salmon offers a wealth of vital nutrients, including essential fatty acids.

Organs

A blend of additional organs, including heart, liver, lungs, and kidneys, is incorporated to ensure high levels of essential micronutrients.

Wild Venison Bone Broth

Derived from the leg and pelvis bones of wild deer, bone broth is an exceptional addition to your dog's diet. Bones serve as a rich reservoir of minerals, while collagen and other nutrients from connective tissues support joint and gut health.

Whole eggs with shell

Eggs are a superfood, providing an excellent source of vitamin A, riboflavin, folate, vitamin B12, iron, selenium, and omega fatty acids.
